### Features & Benefits

The AK-PMJ1 is a modern PC mouse with convincing qualities regarding cleanliness and hygiene at the workplace. The AK-PMJ1 is very easy to clean and can be fully rinsed and washed from all sides.

Best results are achieved by cleaning with a piece of cloth or a soft brush under rinsing water or in the sink. The AK-PMJ1 can be fully submerged under water (IP 68). Skin compatible detergents should be used for washing. For wipe disinfection, disinfectants can be used according to the German VAH list.
